

Journal Review Assignment

To access Food Science and Technology Journals electronically:

- Refer to the list of Journals below
- Select a title and click on it with your mouse. It should take you to the journal. If you are off-campus, you will be prompted to enter **your Blackboard username and password first.**
- You can then browse various years:
  - Click on the year...issue.
  - Be aware that sometimes **we can't access articles published in the past 6-18 months** so you need to go back further. **Look for a link that says "archive", "past", "previous issues" etc.**
  - Or search a keyword or phrase within the journal:
    - Look for a Search Box that says "Search within this Publication" or "Search this Journal"
    - You can do a very broad search because it's just one journal, e.g. grains
  - Look at your results to find scholarly/research items. Click on PDF
  - AVOID: Book reviews, Editorials
  - LOOK FOR: Author credentials/affiliation, extensive bibliography, charts/figures/data, substantial number of pages
  - Print/Email/Download Article
